1. How Claude AI Works

Claude uses advanced AI technology called:

- Large Language Models (LLMs)

Basic Working Process:

1) You type a question or give instructions
2) Claude analyzes the text
3) It predicts the best meaningful response using trained data
4) Gives human-like answers

Think like:

 A super-advanced auto-complete system that understands context.

2. Key Features of Claude AI

Natural Conversation

1. Talks like a human
2. Understands context

Writing Assistance

- Essays
- Emails
- Stories
- Reports

Coding Help

5) Generate code

6) Debug errors
7) Explain programming concepts

Document Analysis

- Reads long files
- Summarizes large content

Reasoning Ability

- Step-by-step problem solving
